# Activities organised in Estonia

Organised 3 workshops with students:

- 20/04/2023 (political science students at the University of Tartu)
  - 28/04/2023 (natural science students at the University of Tartu)
  - 20/09/2023 (student environmental NGO activists)
- All workshops consisted of
    - (a) presentation about European Green Deal
    - (b) groupwork in smaller student teams to design proposals for implementation of Green Deal principles in city of Tartu
    - (c) presentation of proposals to other groups, feedback

**Tartu**  
**2024** European  
Capital  
of Culture

# Outcomes of discussions in Estonia

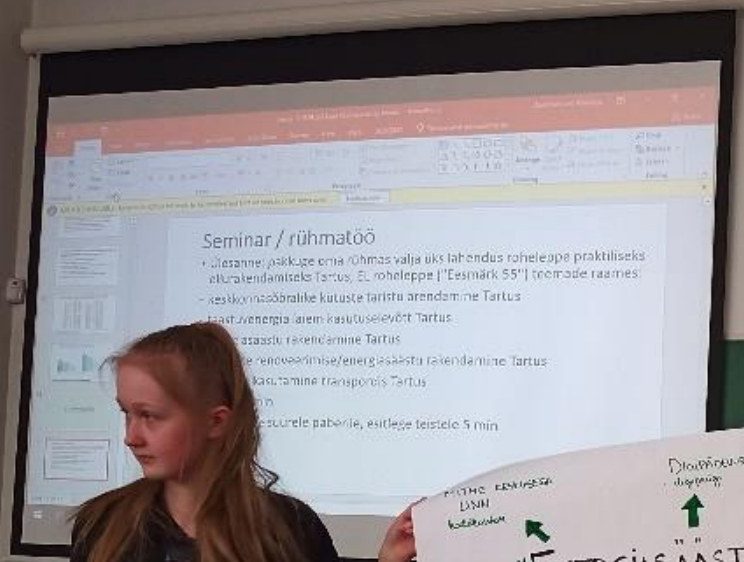

Most frequently, following issues were highlighted among priority actions for city of Tartu (100,000 inhabitants):

- Housing – net zero buildings, energy saving in big apartment buildings (insulation), use of renewable energy (solar panels on roofs), energy saving lighting, good waste separation, reuse of rainwater from roofs
- Transport – preference to public transport (hydrogen bus, introduction of trams, hyperloop, better night buses), more bicycle paths, free city bike rent, car free centre and streets, ban of (fossil) cars, free charging of electric cars
- Biodiversity – more green areas, trees as shelter during heatwaves, no cutting of grass, gardens and bees on roofs
- Food security – urban gardens, growing own food, local food from nearby rural areas
- Better urban planning – many smaller centres instead of single big one, park&ride, more music&art on streets, street lights with motion sensors

# Outcomes of discussions in Estonia

Small group #	Energy saving in buildings	Renewables, solar panels	Public transport, hyperloop	Restriction or ban of (fossil) cars	Bicycle use	Bio-diversity in cities	Growing own food	Composting and biogas production
